Become a founding member today.

Recovery Champions provide dependable funding that helps Grace To Change maintain the professional staff and treatment capacity needed to serve adolescents and adults year after year.

Our counselors typically serve 15 clients at a time, with new clients entering care as others complete treatment. By investing in our treatment capacity, Recovery Champions help make care possible for successive groups of clients, sustaining our commitment to an evidence-based model that is tailored to the needs and goals of each individual.

A Champion's investment helps Grace To Change:

- maintain qualified counseling and recovery staff, including peer support
- train additional staff
- provide treatment regardless of a client's ability to pay
- expand treatment availability to serve more clients at more times
- provide long-term support and aftercare for lasting recovery
